

# Final Project Documentation

Henrique Werner and Prasiddha Shrestha

## Criteria Evaluation

### Usability:

Our website prioritizes usability by employing a clean and intuitive design. The navigation is straightforward, with clear labels and menus guiding users through the different sections. The introduction provides a comprehensive overview of the topic, ensuring that users understand the context before delving into specific areas. The search feature allows users to find relevant articles easily, enhancing the usability of the site by enabling quick access to information. Additionally, support pages are easily accessible, providing assistance to those who may need it. Overall, the usability of our website is a key focus, ensuring that users can navigate and interact with the content effectively.

### Educational Value:

The educational value of our website is evident in its comprehensive coverage of topics related to internet ethics, human rights, and accessibility. The introduction provides foundational knowledge, while the quiz challenges users to test their understanding further. The latest news section keeps users informed about current events and developments in the field, fostering ongoing learning. Furthermore, the inclusion of statistics and data adds depth to the educational experience, providing empirical evidence to support key points. By offering a range of educational resources, our website aims to facilitate learning and awareness-building on important societal issues.

### Interactivity:

Interactivity is a core aspect of our website, enhancing user engagement and participation. The quiz feature allows users to actively engage with the content, testing their knowledge and promoting deeper learning. Additionally, the search feature encourages exploration by enabling users to discover relevant articles based on their interests. The inclusion of interactive elements such as polls or surveys could further enhance user engagement in future iterations. Overall, interactivity is integrated into various aspects of our website to enrich the user experience and encourage active participation.

### Aesthetics:

Our website prioritizes aesthetics by employing a clean and visually appealing design. The layout is well-organized, with attention to typography, color, and spacing to enhance readability and visual appeal. High-quality images and graphics are used thoughtfully to complement the content and create a visually engaging experience. The color scheme is carefully chosen to evoke a sense of professionalism and trustworthiness, aligning with the serious nature of the

topics discussed. Overall, the aesthetic design of our website contributes to a positive user experience, reinforcing the credibility and professionalism of the content presented.

#### Conclusion:

In summary, our final project meets the requirements for usability, educational value, interactivity, and aesthetics. Additionally, we have put special effort into ensuring accessibility and inclusivity, further enhancing the value and impact of our website. We believe that our project demonstrates a strong commitment to delivering a high-quality user experience while also addressing important societal issues.
